

**For Immediate Release**  
**Telrad Introduces MultiService Access Gateway**  
*Upgrade for Legacy to Triple-Play Networks*

**Lod, Israel** – March 25, 2008 - Telrad Networks, a veteran developer of carrier-grade telecommunications equipment, today released the TL6500, a MutliService Access Gateway (MSAG) for service providers looking to make the migration from legacy systems to move towards triple-play networks of voice, video, and data.

The TL6500 supports a wide range of user interfaces, including ADSL2+, VDSL, G.SHDSL, Fast Ethernet, POTS and ISDN as well as Giga Ethernet uplink. The robust and scalable solution allows for outdoor as well as Central Office applications of single or multiple shelves, depending on the required capacity

“Operators recognize their access solutions need to provide a wide range of services as customers are demanding not only voice, but also data and video,” said Rebecca Rachmany, Director of Marketing for Telrad Networks. “The TL6500 is a carrier-grade and future-proof access solution for today's operators.”

The TL6500 has successfully been deployed with several of Telrad's customers in Asia. TL6500 is optimized for advanced broadband applications, featuring a high-speed Ethernet-based backplane, broadband service cards and advanced IP/Ethernet processing as well as narrowband and legacy services.

**ABOUT TELRAD NETWORKS LTD.:** Telrad Networks has been developing carrier-grade communications equipment for more than half a century. Telrad provides development capabilities that focus on integration of core technologies into standardized, Tier-1 carrier-class products. Telrad is devoted to providing a highly flexible development team, allowing its partners and customers a high level of control in the development cycle and product roadmap. Telrad’s Integrated Network Solutions Division provides professional support services and transition from traditional to next generation networks for operators in emerging markets. Telrad is a privately-owned company founded in 1951. For more information, visit [www.telrad.com](http://www.telrad.com)
